

The EyeNote™ App

What is EyeNote™

EyeNote™ is a free mobile device application to identify denominations of Federal Reserve Notes (U.S. paper currency) as an aid for the blind or visually impaired.

EyeNote™ runs on:

- iPhone® 3G, 3Gs and 4
- 4th Generation iPod® Touch
- iPad®2

Features

- OneTouch, hand-held operation.
- Face or back of note to camera.
- Partial note recognition (note can be handheld).
- Any circular orientation.
- No equipment modification, special background materials or special lighting required.
- Camera flash is not required.
- No data connection required - all processing on device.
- Currency designs from Series 1996 and forward.
- Note can be on a complex background.
- 2-4 second response time.
- User selectable spoken output English or Spanish, based on device language setting.
- Spoken mode also indicates the front or back of note to assist in vending use.
- Simplified on screen instructions (read aloud when device is set to VoiceOver in Accessibility mode)
- Privacy mode when discretion is needed uses vibrations on the iPhones® and audible tones on iPod® Touch and iPad®2.
 - One Dollar is 1 pulse.
 - Two Dollars is 2 pulses.
 - Five Dollars is 3 pulses.
 - Ten Dollars is 4 pulses.
 - Twenty Dollars is 5 pulses.
 - Fifty Dollars is 6 pulses.
 - One Hundred Dollars is 7 pulses
 - Error, reposition is 8 rapid pulses.
- Does not authenticate real notes from counterfeit.

Additional Information

- EyeNote™ is available as a free [download](#) from the Apple App StoreSM
- More information is available at www.eyenote.gov or by email at eyenote@bep.gov.
